28: Critical Resource Needs (amount, type, kind and number of operational periods () in priority order in 12, 24, 48, and 72 hour time frames): 12 hours: <b>None</b> 24 hours: 48 hours: 72 hours:	hour time frames 12 hours: <b>None</b> 24 hours: 48 hours:	s):	Needs (amo	unt, type	e, kind and ı	number	of oper	ational	period	ls () in priority	order	in 12, 24, 4	8, and 72	

29: Major problems and concerns (control problems, social/political/economic concerns or impacts, etc.) Relate critical resources needs identified above to the Incident Action Plan.

No precipitation received from several passing thunderstorms. Proposed burnout will create significantly more smoke over the next several operational periods.

30: Observed Weather for Current
Operational Period
Peak Gusts (mph): 6 Max.
Temperature: 86
Wind Direction: NE Min.
Relative Humidity: 62

31: Fuels/Materials Involved: 4 Chaparral (6 Feet)
Carolina Bay fuels (Sweet Bay, Wax Myrtle, Loblolly Bay) and
Sandridge.

32: Today's observed fire behavior (leave blank for non-fire events):

Active burning continues within interior of bays and burned out areas.

33: Significant events today (closures, evacuations, significant progress made, etc.):

## Secondary contingency lines completed north of powerlines. Perimeter lines widened. HELO and CL-215 utilized to douse isolated spots on DIV I.

34: Forecasted Weather	r for next Operational Period	25. E. C 1 C 1	36: Projected Final Size:	
Wind Speed (mph): <b>6</b>	Lemperanire: 92	Date and Time:	2970	37: Estimated Final Cost:
Wind Direction: SW	Relative Humidity: <b>52</b>	Date and Time.	2710	

38: Actions planned for next operational period:

### Complete burnout of area north of burn and south of powerlines when weather conditions are conducive. Approximately 1600 acre burnout is planned.

39: For fire incidents, describe resistance to control in terms of:

- 1. Growth Potential **High**
- 2. Difficulty of Terrain **High**
- 40: Given the current constraints, when will the chosen management strategy succeed?
- 41: Projected demobilization start date:
- 42: Remarks:

Cloudy and cooler conditions have moderated fire activity, however, drier and windier conditions are expected through next week.

#### 43: Committed Resources (Supplemental Committed Resources follow the first block)
